

### **Rates for Forensic Consulting**

My regular rate is \$250 per hour, and this covers all activities, including record review, report writing and testifying.

Under special circumstances, I am willing to consider adjusting my rate downward.

When allowed by the funding agency, I do charge for time in transit, but cap that expense to a maximum of 2.5 hours per direction, regardless of time spent in cars, planes and airports.

I do not charge for initial consultations, up to a maximum of three hours. I do this in part to ensure that a case is one where the attorneys and I feel comfortable with my proceeding further.

### **References**

I will be pleased to provide an attorney or mitigation specialist with the names of people I have worked with and transcripts or court decisions in which my testimony was featured.
